The screenshot shows the LimeWire PRO V5.0.11 interface. The main window is titled "LimeWire: Enabling Open Information Sharing". The menu bar includes "File", "View", "Navigation", "Resources", "Tools", and "Help". The toolbar contains "Search", "Monitor", "Connections", and "Library". The "Library" tab is active, showing search results for "speeches (275/278)".

On the left, there is a "Select Type:" section with options: "Any Type", "Audio", "Images", "Video", "Documents", and "Programs". Below this is a "Don't Know What To Look For?" section with a "What's New" button. At the bottom left, there is a "Keyword" field with "What's New" entered.

The main search results table has columns: Quality, #, Name, Type, Size, Speed, and Bitrate. The results include various speech files, such as "Great Speeches - John F Kennedy - Ask not...", "Great Speeches - Mahatma Ghandi - His Spl...", and "Audio Books - Great Speeches - Winston Ch...".

At the bottom of the search results, there are buttons for "Download", "Browse Host", and "Stop".

Below the search results is a "Downloads" section with a table showing the progress of downloads:

Name	Size	Status	Progress	Speed	Time
Audio Books - Great Speeches - Winston Chur...	2,310 KB	Downloading fr...	99%	14KB/s	
Great Speeches - Speeches - Ronald Reagan ...	326.8 KB	Complete	100%		
Great Speeches - 1Winston Churchill - So muc...	1,698 KB	Need More So...	0%		

At the bottom of the interface, there is a "Quality: TurboCharged" indicator, "Sharing 134 files" status, and a "LimeWire Media Player" control bar.
